Aerators available in 1.4, 2.4, 4, 6, 8, 13 LPM to suite Green Building Requirement

- Chrome 0.2 - 0.3 μ
- Nickel 10 -12 μ
- Brass

FROM THE DESK OF CHAIRMAN
MR. AJIT GARG

At Xen, we understand the enthusiasm that surrounds our home maintenance and renovation projects. This understanding is the foundation of our company's mission: to provide the best selection of faucets, showers systems, and accessories on the market. Our products are created to match the style of your home; perfect for the kitchen and bathroom.

We have created an unparalleled team of employees and devised cutting-edge facilities to design, test, improve and refine our products. Sophisticated high-performance faucets and shower systems are designed to meet all your fitting needs.

Xen team leaves no stones unturned to guarantee the best possible life span and superior quality for the products we offer. Our products are unique, easy to install and come with a warranty of up to 10 years.

Xen faucets are designed for easy installation. Mechanical parts are easily accessible from above the counter, making maintenance and cleaning chores much more straightforward.

Xen showers are designed to give you higher laminar water flow even at low pressure & silicon nozzles are given for easy cleaning. All bathroom accessories are designed as per European standard to match your status and style with a high standard of performance."

We have all certifications in place to ensure high-quality standards. We maintain a wide variety of products under one roof with ready stock for quick delivery within the shortest period.

For the last 27 years, our quality product ethics, proper testing, and client-first approach have led to maximum customer satisfaction and the highest ROI on their investments.

We have a completely integrated manufacturing facility in Delhi and a dedicated CRM team with a toll-free number for quick customer complaint redressal. Our innovation and know-how are sure to exceed all your expectations.

I would like to thank you from the bottom of my heart for patronizing Xen products and being part of the Xen family.

Teamwork is a sense of unity and the Xen family is a firm believer in that. When we work together towards a goal, it becomes much more achievable. Xen team leaves no stones unturned to guarantee the best possible life span and superior quality products. Our products are unique, easy to install and come with a warranty of up to 10 years.

With this aim, our team is working together since years towards the progress of the company. This has contributed to the efficiency and overall growth of the company. Together we work as a team meticulously to build a spirit of loyalty, quality and transparency.

WE CARE FOR DEALERS, THEIR CUSTOMERS AND IT SHOWS

We use promotional products to market your dealership and provide a memorable experience to your customers with an exceptional ROI. Our array of promotional products help create awareness for your business or the marketing campaign you are running. They can act as value-added gifts to enhance your customer's experience and lure new, prospective buyers.

8255 | Aerator Only for Mixer (28x1) | ₹ 50/-

Washers Synthetic

5502 | Connection Washer (100Pc) | ₹ 155/-

5504 | Mixer Legs Washer (100 Pc) | ₹ 275/-

Grab Bar

1080 | Grab Bar S.S. with Flange 12" | ₹ 745/-
1082 | Grab Bar S.S. with Flange 15" | ₹ 795/-
1084 | Grab Bar S.S. with Flange 18" | ₹ 845/-

Adjustable Mirror

1062 | Adjustable Mirror 8" | ₹ 2550/-

Internal Fittings

8310 | Internal Fitting Auto Flush Cock | ₹ 1295/-

8302 | Internal Fitting Executive 6 Face | ₹ 205/-

8305 | Internal Fitting Rising | ₹ 125/-

8307 | Ceramic Disc 1/2" for Concealed | ₹ 245/-

8313 | Internal Fitting Rising for Concealed | ₹ 225/-

8328 | Internal Fitting for Concealed Button Flush Valve | ₹ 1295/-

8316 | Internal Fitting for Pressmatic Tap | ₹ 795/-

8335 | Neoppearl Tip Ton Fitting with Knob | ₹ 455/-

8306 | Ceramic Disc 1/2" for Cocks Heavy | ₹ 170/-
8312 | Ceramic Disc 1/2" for Cocks Light | ₹ 135/-

8307 | Ceramic Disc 1/2" for Concealed | ₹ 245/-

8314 | Ceramic Disc Quarter Turn 3/4" for Cocks | ₹ 315/-

8315 | Ceramic Disc Quarter Turn 3/4" for Concealed | ₹ 350/-

Bath Tub Over Flow Sets

8101 | Bath Tub Overflow Set STD | ₹ 1475/-

8102 | Bath Tub Overflow Set Maestro | ₹ 1725/-

Urinal Sprayders

4801 | Urinal Sprayder HSI | ₹ 595/-

4803 | Urinal Sprayder Parry Long | ₹ 645/-

Ceramic Cartridge

Ceramic Cartridge Plain
8308 | 35mm | ₹ 350/-
8311 | 40mm | ₹ 375/-

8321 | Ceramic Cartridge
46mm Hiflow
(4 Way) ₹ 675/-

8325 | 2 Way
Cartridge 25mm
₹ 245/-

8330 | 2 Way
Cartridge 31mm
₹ 275/-

8336 | Cartridge Direct
For F/M Sink Mixer 35mm
₹ 415/-

8333 | 2 Way
Cartridge 31mm Long Spindle
₹ 375/-

CP Pipe Fittings

8201 | CP Elbow 1/2"
₹ 225/-

8202 | CP Tee 1/2"
₹ 225/-

8203 | CP Hex Nipple 1/2"
₹ 120/-

8204 | CP Socket 1/2"
₹ 145/-

8208 | Washing Machine
Adopter | ₹ 115/-

8214 | CP Plug 1/2"
(Male Thread) | ₹ 100/-

8221 | Nozzle for Bib Cock
(Both Side Thread) | ₹ 85/-

8222 | Nozzle for Bib Cock
Female Thread | ₹ 85/-

Rack Bolts For EWC

8160 | Rack Bolt MS
with Brass CP Cap 5/8" | ₹ 685/-

8171 | Rack Bolt SS
with Brass CP Cap | ₹ 765/-

8167 | Urinal Pan
Bracket | ₹ 135/-

Wash Basin Bolts

8162 | Wash Basin Bolt
with CP Cap 3/8" | ₹ 175/-

8163 | Wash Basin Bolt without
CP Cap (9mm x 120mm) 3/8" | ₹ 90/-

8165 | SS Wash Basin
Bolt SS 3/8" | ₹ 165/-

Mixer Legs, Crutch, L-bend & Divertor Tee

8107 | Wall Mixer Crutch
₹ 455/-

8109 | Wall Mixer Legs (Jaguar Type)
With Flange | ₹ 675/-

8110 | Wall Mixer Legs (Parco Type)
9" Per Pair | ₹ 725/-

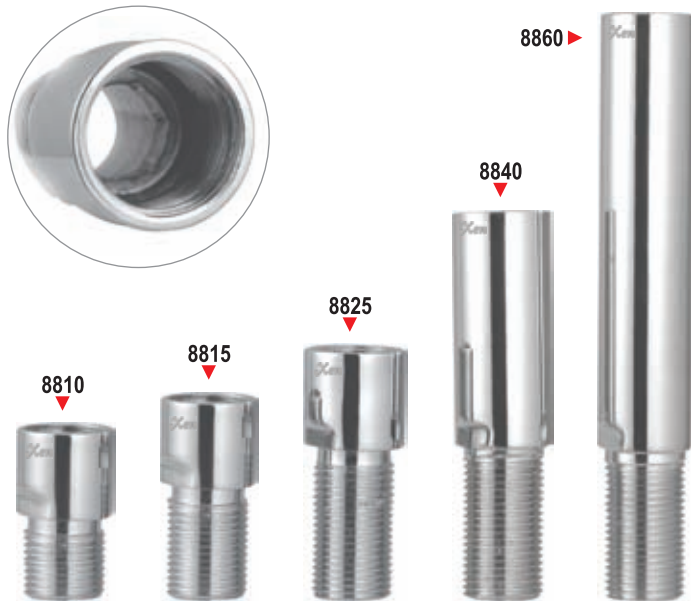

8112 | W/M/Bend Executive | ₹ 595/-
8113 | W/M/Bend Economy | ₹ 535/-

8218 | Divertor Tee for Wall Mixer
₹ 825/-

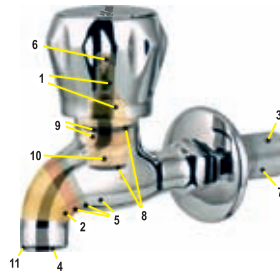

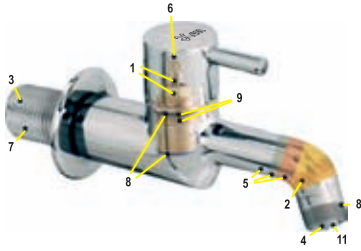

Extension Nipples

8810	Extension Nipple 1"	25mm	₹ 85/-
8815	Extension Nipple 1½"	38mm	₹ 120/-
8820	Extension Nipple 2"	50mm	₹ 170/-
8825	Extension Nipple 2½"	63mm	₹ 205/-
8830	Extension Nipple 3"	75mm	₹ 240/-
8840	Extension Nipple 4"	100mm	₹ 325/-
8860	Extension Nipple 6"	150mm	₹ 485/-

HOW *Xen* IS DIFFERENT FROM OTHER BRANDS?

QUARTER TURN

1. LONG LASTING INTERNAL FITTING ASSEMBLY

Conventional but Half Turn

- Both spindle & bonnet made of finest extruded brass rod.
- Rising type . Less number of working parts than conventional one. Hence, less chances of wear & tear, easy to maintain/replace/repair.
- Multiple transmission thread for maximum lift with minimum turn (180 +/- 20 degree turn) result is 3 mm standard lift of valve to release sufficient quantity of water.
- Anti-slip transmission thread.
- Transmission thread area (actual working area) duly lubricated with high grade engineering lubricants (silicon).
- Transmission area remains protected with "O" ring against lubrication wash-off, debris or suspended particles in water hence longevity of transmission thread is ensured.

Ceramic Disc Cartridge

- It is washerless, hence there is no issue of eventual wear & tear.
- This type of cartridge offers higher endurance & very low maintenance in the long run.
- Minimum rotation of only 90 degrees required for full flow of water.
- This cartridge is made entirely of brass.

Single Lever Cartridge

- Multi Function cartridge, mixing of hot & cold water and the flow of water can be controlled by a single lever.
- Cartridge is made of high quality ceramic disc, hence it is washer free.
- Since the cartridge is washerless, the fitting offers high endurance & low maintenance over prolonged periods of time.

CONVENTIONAL

2. SOLID BRASS CONSTRUCTION

- Made of highest grade brass (copper contents 58% or more).
- All of the Components assembled in final products except petty items like screw, etc. are made of brass only. No components so far, has been introduced in zinc by us.
- Made of die-cast brass (Grade DCB II as per IS) with gravity die casting procedure.

3. WATER PRESSURE SUSTAINABILITY

Appropriate & uniform wall thickness all over the body to sustain water pressure of up to 10 kgf/sq.cm.

4. STREAMLINED / AERATED FLOW

Sieve/aerator : Appropriate water straightening device i.e. sieve/aerator provided for water saving as well as anti-splash feature.

5. DURABLE EXTERNAL FINISH

Chromium Plating:

- Three layer chromium plating i.e. Copper, Nickel & chromium
- Before nickel plating each piece passes through a Copper bath (now eliminated by most of the manufacturers for taking higher production) for added luster and proper electric conductivity resulting in better adhesion of nickel & chromium on the exterior of body.
- Appropriate thickness of Nickel (10 to 25 microns) and Chromium (0.3 to 0.5 microns) for enhanced luster and enhanced life of outer surface.
- State of the art Electroplating plant.

6. EASY OPERABLE

Handle: Ergonomically designed handles/ knobs for better & anti-slip grip.

Appropriate sizing & punching of knurling for better fitment of handle/knob on internal fitting assembly.

7. UNBREAKABLE THREAD

14mm of inner diameter maintained at inlet thread to give an appropriate wall thickness in this main load area at the time of installation. Hence chances of thread breakage are almost eliminated.

8. SYNTHETIC RUBBER PARTS

Rubber parts

All rubber parts are made of synthetic rubber for better life & sealant.

9. LEAK PROOF

Double rubber sealants:

- For protection of transmission thread from dirt, particles, salt, iron or other impurities in water for enhanced life of the valve.
- For protection of lubrication agent applied on transmission thread from getting washed away with water for easy & smooth, maneuvering always & enhance life of the transmission thread.

10. ENHANCED LIFE

- Anti-rotation mechanism in valve resulting in enhanced life of seat washer as the same is being protected against getting damaged from roughage on seat.
- Endurance test done for 30000/100000 cycles * randomly.

11. APPROPRIATE SIZING

Appropriate sizing & provision of stopper in sieve / aerator fitting area, avoiding it to slip inside the tap or to slip out with pressure of water.

*Depending on models

SINGLE LEVER

“MIY” MAINTAIN IT YOURSELF

One of the major problems that the households face is the maintenance of taps. Even for a small problem you need to call a plumber and you end up feeling that the taps you purchase are too costly. But the problem will persist even with the leading brands because the water will always have dissolved particles in it and it will always clog the aerator resulting in low flow of water.

XEN, a leading brand in quality taps brings you the solution. Along with technologically advanced, intelligent designs, value for money and 7 years warranty XEN brings to you “Maintain it yourself (MIY)” taps. Let’s learn how!

LEARN HOW TO CLEAN A TAP

To keep the exterior finish of our product i.e, Chromium Plated / Coloured Surface shining for years, clean it with the help of mild soap & water. Do not use abrasive sponge or scouring agents for cleaning.

We also advise you not to use cleaning agents containing solvent or acid, lime scale removers, household vinegar and cleaning agents with acetic acid in them.

Clean Taps with a little soap and moist cloth only, then simply rinse off and wipe dry. You can avoid lime spots (White Spots) by drying the fitting each time it is used. After drying you can apply a coat of wax polish to protect the surface from settlement of water for a considerable period of time.

LEARN HOW TO CLEAN THE AERATOR

Because of the dust, minerals and suspended particles, that comes with the water the aerator gets clogged, resulting in low flow of water. The solution is not to remove the aerator but to clean it as it helps you get streamlined and anti-splash flow of water with reduced consumption of water as well.

To clean the aerator first open the housing by unscrewing it clockwise, take out the aerator.

Wash it with water, clean it and simply attach it again. Here you go steady high flow of water. Surely you save a few bucks here.

LEARN HOW TO SOLVE THE DRIPPING TAP

Another problem that you face with the tap is the issue of dripping tap. This issue can be solved by cleaning the internal fittings and you would be happy to know that you don't need to call the plumber again.

Firstly open the ABS Screw on the tap handle.

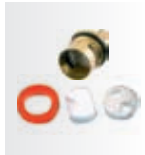

Use the allen key (Provided with Every Box) to open allen Screw inside and remove the tap handle.

Once you remove the tap handle you will find the ceramic disc cartridge. Unscrew it with the help of a spanner by turning it anti-clockwise.

Now remove the rubber washer at the bottom of the cartridge.

Remove the two ceramic discs inside and clean it. Apply little grease on the shiny surface of both the disc.

Now put the ceramic discs and rubber washer back to its place and fit the handle back on the tap.

Here you go --- drip free tap.

So next time when you purchase a tap don't look for a cheap option, instead go for the one which gives you value for money and peace of mind.

PROBLEM	RESOLUTION
Less Waterflow From Aerator	CLEAN THE AERATOR IN 3 SIMPLE STEPS
	1. Open the permix by moving anti clockwise
	2. Clean the garbage collected & back flush with high prerssure water
Call not picked up at customer care number	REASON MAY BE YOUR ARE CALLING DURING OFF HOURS , IN THAT CASE
	1. Make a small video of your concern with voice explanation
	2. Send to WA number - 9313280552 & share your contact details
Dealer is unable to address the complaint	3. Our CRM team will connect you
	Contact at Company Toll free number or WA number
Plumber don't know the correct way to fix the faucet	Visist our you tube channel or send request at WA, and you will get explainer video
Knob Looses the grip	Open the plastic button provided on the back side of the knob and tighten the LN screw with 2.5mm LN Key

CARE AND INSTALLATIONS

Xen constantly strives to interact with consumers and make its products consumer friendly. The company's trained staff and executive maintain a direct interface with consumers, educating them about the product quality, convenience and maintenance. Xen also believes that consumers must get the best out of its products. Hence it has evolved a set of consumer guidelines, which if followed ensure optimum and trouble free performance with enhanced durability of Xen products of years to come. The guidelines are:

DURING INSTALLATION

- Use 25mm pipeline instead of 20mm to ensure better flow of water. Lay the pipelines straight and vertical as far as possible.
- More than required number of bends throttle the pressure of water. Keep the number of bends in the pipelines to a minimum. All the supply lines must have vent pipes which helps in giving a smooth flow of water from the fittings.
- Center to center distance of pipe fitting for Hot & Cold inlet for all types of wall mounted mixtures should be maintained at 165mm by which any of our wall mixers can be easily installed without any problem.
- Place the outlet point in the overhead tank at least 2.5cm above the ground level of the tank. This prevents the flow of foreign particles, sand, etc. along with water supply into the fittings avoiding the possible damage to the working parts.

POST INSTALLATION

- Cover the taps with poly pack before or after their installation till they are put to actual use to protect the fine finish of fittings from dirt, stains and other damages.
- Do not use harsh cleaning agents containing abrasives and acids. Instead use of soft sponge or wet cloth with soapy water / diluted vinegar to protect the colour finish.
- Clean the aerators provided in the items at regular intervals for a perfect flow of water from the fittings. To clean the aerator, remove it, knock out the silver insert and rinse through with water.
- Clean the overhead tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular intervals to avoid deposition of foreign particles. To avoid any foreign material to pass through the taps use jali.
- Avoid leakage of water from taps.
- Turn the tap off when not in use especially when you brush your teeth or wash clothes.
- Check the leakage of water in the toilets. Also get check the hidden water leaks.
- Never throw the water unnecessary on roads which can be used for gardening and cleaning.
- Avoid unnecessary flushing the toilets. Use minimum amount of water to bath.
- Water your lawn only when it is needed.
- Do not leave the tap running while washing the dishes in the kitchen.
- Install small shower heads to reduce the flow of water.

Terms & Conditions E. & O. E.

1. Rate are for Delhi.
2. Interest @ 24% p.a. will be charged on all over due a/c.
3. Payment will be accepted by RTGS/NEFT or CBS Branch cheque payable at par
4. Subject to Delhi Jurisdiction only.
5. Our responsibility is upto the delivery of goods at TPT Delhi Office. Any loss in transportation will be borne by the Purchaser.
6. This price list superseads our all previous price lists.
